

SEDGWICK COUNTY ELECTRIC COOPERATIVE ASSOCIATION INC.

**LOAD CONTROL RIDER FOR IRRIGATION SERVICE (EXPERIMENTAL)
RATE 71**

**SCHEDULE IR 18 LC
Replacing Schedule IR 09 LC**

APPLICABILITY:

This rider is applicable to service currently being served under Rate Schedule IR-18.

LOAD CONTROL CREDIT:

If the consumer agrees to participate in the Cooperative's load control program and agrees to the installation of a load control device(s) on the consumer's irrigation equipment, the consumer will receive a demand charge discount of \$8.80 per April-September and \$1.00 per kW October-March resulting in a demand charge of \$1.20 per kW in any month. The load control device(s) will be installed and maintained by the Cooperative. The load control device(s) may curtail service for up to five hours per day on days when the temperature is at or above 95 degrees Fahrenheit.

SPECIAL CONDITIONS:

1. A consumer receiving a discount under this rider would forfeit the discount and be billed under the standard irrigation rate for the entire month if they terminate the program anytime during the service year.
2. The consumer shall make a contribution to the Cooperative for 50% of the cost of the load control device(s) and the cost of installation. All devices shall remain the property of the Cooperative.
3. The minimum annual charge under this program will be \$300.00.
4. The Cooperative has the right to limit the participation in this program, as it is experimental in nature.
5. Any termination of this rider within the first five (5) years would require the consumer reimburse the Cooperative the remaining cost of the load control device(s) and cost of installation.
